1. I discussed the CIRIS d	
	at lunch
today, telling him that the revised	instructions would be ready for
issuance about ! March. He agre-	ed to this and we arranged that
it would be done through his office	, as was the procedure last year.
2. I let know that we	were aware of work
on his management systems, offer	ring to be of whatever service we
could in the matter and I reminded	him we stood ready to modify
CIRIS in an effort to produce a sys	stem to answer the needs of both
DCI and DOD. Hall was appreciat	ive but noncommittal.
3. I would suggest that at	some later date, as you keep
abreast of what is doing, an	other effort be made to marry
the systems and to give anoth	er full-ecole briefing on the state
of the art. This should be done no	t an investment the state of the shadely
of CIRIS but to save the community	woner and to nearest the
possibility of DOD developing a sy	stans of valativals little see to the
